MARKET OPPORTUNITY

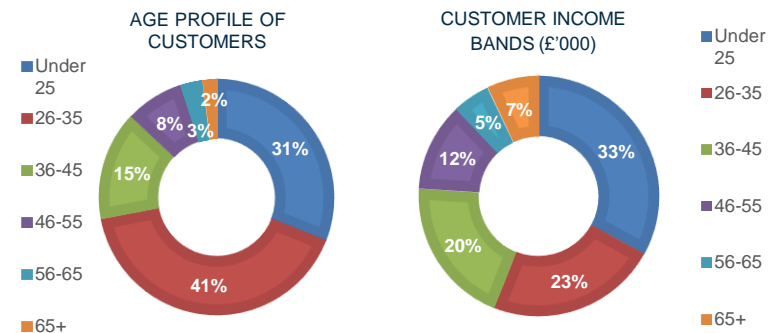

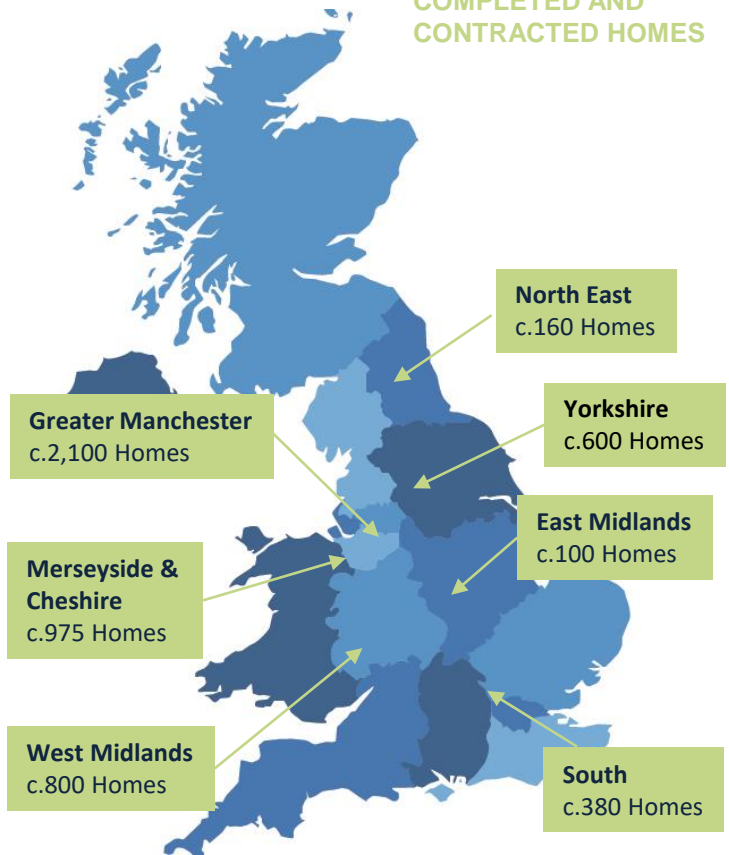

Demand for rental homes in the UK is growing and c. 25% of all households are now living in the rental sector. Factors driving this demand include population growth, deposit affordability constraints, house price inflation and supply issues in the ailing traditional buy-to-let sector.

Currently, the private rental market is typically privately managed and fragmented, with the market for new family houses (rather than flats) under-served.

The Company's high-quality, professionally managed homes at key economic hubs represents an attractive option for middle-income families.

Both local and central Government recognise that the build-to-rent sector can help to accelerate housing delivery as a whole.

RESIDENT EVENTS

We have continued to organise social events for our residents, arranging a number of safe and fun activities, despite the restrictions imposed due to Coronavirus

November saw us carry out our Halloween competition and our Autumn date night competition in partnership with Just Eat, with one family from each of our sites winning a family dinner date on us.

December also saw the much-anticipated return of Santa Claus and his reindeer, who visited 31 of our sites over seven days to wish all of our residents a very merry Christmas.
