The Alternative Investment Fund Managers Regulations 2013 (as amended by The Alternative Investment Fund Managers (Amendment etc.) (EU Exit) Regulations 2019) and the Investment Funds Sourcebook forming part of the FCA Handbook (together, the "UK AIFM Regime") requires certain disclosures to be made by UK alternative investment fund managers such as G10 Capital Limited (the "AIFM"), when they manage a UK-domiciled alternative investment fund and/or market interests in an alternative investment fund to investors located in the United Kingdom.

This document contains the information that the AIFM is required to make available to investors pursuant to: (i) the UK AIFM Regime as set out in Chapter 3.2 of the Investment Funds Sourcebook of the FCA Handbook ("FUND 3.2") and the EU AIFM Directive, and should not be relied upon as the basis for any investment decision.

'Prospectus' refers to The PRS REIT plc Prospectus – May 2017. Please note this is no longer a live document and should therefore be referred to with caution. Where any information has been revised since publication of the Prospectus, references to the updated source are included within the disclosures below.

(1)(a) a description of the investment strategy and objectives of the AIF	<b>Investment Objective</b>  The PRS REIT plc (“the Company” or “the AIF”) seeks to provide investors with an attractive level of income together with the prospect of income and capital growth through investment in a portfolio of newly constructed residential private rented sector sites of multiple units (“PRS units”) comprising mainly family homes, to be let on Assured Shorthold Tenancies (as defined in the Housing Act 1988) to qualifying tenants.

	<p><b>Investment Policy</b></p> <p>The Company’s investment policy is to pursue its investment objective by investing in PRS units in or near towns and cities in the UK predominantly the Midlands and the North. The Company is creating a portfolio of homes targeted at the family market, the largest cohort within the private rented sector, and therefore is investing predominantly in housing with the addition of some low rise apartments to provide both choice and wider market appeal, in the major conurbations and larger employment centres in the UK, predominantly England, outside London. The locations are chosen for their accessibility, in that they are situated on the main road and rail links, with access to good primary schooling and economic activity, promoting long term employment prospects and thereby a strong need for housing. The new build nature of the assets, alongside standardised specifications, means that they benefit from a 10-year building warranty, typically from the National House Building Council (“NHBC”) as well as manufacturers warranties, providing for a low level of capital expenditure allied to a predictable and low cost maintenance regime. The sourcing of assets is undertaken by the Investment Adviser, Sigma PRS Management Limited (“Sigma PRS”) and is done so by two principal methods. In the first instance, development sites (“PRS development sites”) are selected and assessed, detailed planning permission achieved and a fixed price design and build contract signed with one of the Sigma</p>

	<p>PRS’s construction partners and the delivery process is managed on behalf of the Company by Sigma PRS. As the assets are acquired with detailed planning consent and fixed price design and build contracts, the Company is exposed to minimal development risk. The construction risk is mitigated with standard design and build contracts containing liquidated damages clauses for non-performance, financial retentions for one year post completion and a parent company guarantee ensuring the satisfactory performance by the contractor and providing an indemnity for losses incurred. In accordance with the right of first refusal agreement with Sigma PRS, the Company intends to source not less than two thirds of its assets in this way. To expedite the growth of the Company, the balance of assets are acquired by entering into forward purchase agreements with Sigma Capital Group plc (“Sigma”), the holding company of Sigma PRS, which are acquired as completed and stabilised developments using the same construction partners and supply chain, thereby ensuring homogeneity of the housing stock. A variation on this method is the purchase of completed and stabilised developments from third parties using approved construction partners.</p> <p>Please refer to the Company’s ‘Notice of General Meeting including proposed changes to the Company’s investment policy’ dated 1 February 2021 for further details.</p>

<p>(1)(g) the circumstances in which the AIF may use leverage;</p>	<p>The PRS REIT is using gearing to enhance equity returns. The level of borrowing will be on a prudent basis for the asset class, whilst maintaining flexibility in the underlying security requirements and the structure of both the PRS portfolio and the Group. The Group has raised debt from banks, Homes England and the capital markets.</p> <p>The aggregate borrowings of the Group is always subject to an absolute maximum, calculated at the time of drawdown of the relevant borrowings, of not more than 45% of the gross asset value, although the Investment Adviser expects actual gearing to settle to around 40% following stabilisation of the PRS portfolio.</p> <p>The Group may utilise derivatives for efficient portfolio management. In particular, the Company may engage in full or partial interest rate hedging or otherwise seek to mitigate the risk of interest rate increases on borrowings incurred in accordance with the gearing limits as part of the management of the PRS Portfolio.</p> <p>The Company will at all times conduct its affairs so as to enable it to remain qualified as a REIT for the purposes of Part 12 of the Corporation Tax Act 2010 (and the regulations made thereunder).</p>

<p>(1)(j) the maximum level of leverage which the AIFM is entitled to employ on behalf of the AIF;</p>	<p>Please refer to (g) above.</p> <p>Both the EU AIFM Directive and the UK Alternative Investment Fund Managers Regime (“UK AIFM Regime”) prescribe two methods of measuring and expressing leverage (as opposed to gearing) and requires disclosure of the maximum amount of 'leverage' the Company might be subject to. The definition of leverage is wider than that of gearing and includes exposures that are not considered to gearing. For the purposes of this disclosure leverage is any method by which a fund's exposure is increased.</p> <p>The Company is therefore required to calculate leverage under the 'Gross Method' and the 'Commitment Method'; the difference between the methodologies being that the Commitment Method allows certain exposures to be offset or netted. Leverage is calculated using Gross Assets, with various adjustments, divided by Net Assets.</p>
